# TopoDays 2016

## Topological effects in Photonics

**April 18-20, 2016**

**Polo Scientifico e Tecnologico Fabio Ferrari (Povo 1 - Povo 2)  
via Sommarive 5/9 - Povo, Trento**

This meeting will bring together researchers on topological effects in a wide-range of photonics-based systems, including integrated silicon photonics, propagating waveguides, photonic crystals, polariton-cavity arrays and much more.

**Speakers will include:**

- Mikael Rechtsman**, Pennsylvania State University, USA
- Patrik Ohberg**, Heriot-Watt University, Scotland, UK
- Ling Lu**, Massachusetts Institute of Technology, USA
- Jerome Esteve**, Université Paris-Sud, France and CNRS, France
- Julien Gabelli**, Université Paris-Sud, France and CNRS, France
- Tomoki Ozawa**, INO-CNR BEC Center, Trento, Italy
- Fernando Ramiro Manzano**, Nanoscience Laboratory, University of Trento, Italy
- Stefan Walter**, University of Erlangen-Nuremberg, Germany
- Giuseppe Santoro**, SISSA, Italy
- Michele Burrello**, Max-Planck-Institut für Quantenoptik, Munich, Germany
- Grazia Salerno**, University of Trento, Italy
- Matthieu Bellec**, Université de Nice-Sophia Antipolis, France
- Fabrice Mortessagne**, Université de Nice-Sophia Antipolis, France
- Martin Wimmer**, Friedrich Schiller University, Jena, Germany
- Alberto Amo**, LPN-CNRS, Marcoussis, France
- Marijana Milicevic**, LPN-CNRS, Marcoussis, France
- Gilles Montambaux**, Université Paris-Sud, France
- Guillaume Malpuech**, Institut Pascal and CNRS, Clermont-Ferrand, France
- Ariel Sommer**, University of Chicago, USA

**Scientific committee**

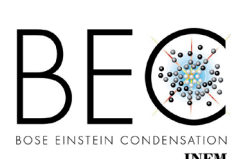

- Hannah Price INO-CNR, BEC Center
- Iacopo Carusotto INO-CNR, BEC Center
- Fernando Ramiro Manzano Nanoscience Laboratory, UNITN
