Nanoscience Laboratory Kick Off Meeting

The annual meeting of the Nanoscience Laboratory

24 November 2017

Polo Scientifico Tecnologico "Fabio Ferrari" (Povo 1 building)
via Sommarive 5, Povo (Trento) - Room A221

The meeting aims at making the point of the research activities and to pave the way to the future research programs. Four research teams, formed by the scientist of Nanoscience Laboratory, will present the state of the art of the research in nanoscience and photonics

PROGRAM

14.00-14.10	**Welcome** Lorenzo Pavesi University of Trento, Department of Physics
14.10-15.00	**ELEDIA Research Center - Research Trends, Current Activities, and Future Applications** Andrea Massa Eledia and University of Trento, Department of Information Engineering and Computer Science
15.00-15.30	**Interactive talk by the Integrated Quantum Photonics team** Stefano Biasi, Massimo Borghi, Alessandro Trenti University of Trento, Nanoscience Laboratory
15.30-16.00	**Interactive talk by the Applied Silicon Photonics team** Claudio Castellan, Pierre Guilleme, Stefano Signorini, Chiara Vecchi University of Trento, Nanoscience Laboratory
16.00-17.00	**Long-term Memory Retrieval Requires Synaptic Glia for Protein Recycling** Marco Canossa University of Trento, Centre for Integrative Biology
17.00-17.30	*Coffee break*
17.30-18.00	**Interactive talk by the Nano-materials team** Marina Scarpa, Paolo Bettotti, Cecilia Ada Maestri, Chiara Piotto University of Trento, Nanoscience Laboratory
18.00-18.30	**Interactive talk by the Applied Silicon Photonics team** Davide Bazzanella, Tatevik Chalyan, Giorgio Fontana, Sara Piccione, Stefano Tondini University of Trento, Nanoscience Laboratory

The meeting is **open to the public** and the participation is **free of charge**.
